Recent discoveries in astronomy have revolutionized the field of cosmology. While many long-standing questions in cosmology have now been answered, the new data pose new mysteries such as the nature of the "dark energy" that dominates the universe. This second edition provides an accessible and thorough text on the physics of cosmology and a lively account of the modern concordance model of the universe, from the big bang to a distant future dominated by dark energy.

Today we have television programmes such as Who Do You Think You Are to thank for the hundreds of thousands of enthusiasts who have now taken up the fascinating hobby of tracing their ancestors, learning about their careers and lives. The author was drawn to the history of HP Sauce and his family 's involvement, having spent several years researching childhood anecdotes. His ancestors—the Eastwood, Moore, and Britton families—all had several business interests in the Victorian and Edwardian periods in the manufacturing industries that were commonplace throughout the North and Midlands of the United Kingdom during that period. HP Sauce perhaps being one of those most famous amongst them. With decades of rumours and myths about the true meaning of the acronym HP, and with the modern medium of the Internet adding to that speculation, the author set about to seek out the truth of his ancestors involvement with the sauce, and this interest brought about his book, HP Sauce: My

If you think that there is some new truth to be learned

humanly, you will be disappointed because there is not a single new truth in the entire world. The truth revealed in this book is not my truth or my message, but the word of God which has been imparting itself to universal consciousness throughout all time. That word of God is already embodied in your consciousness, and this truth, which is already your consciousness, is now being unveiled to you within you. Unless God is my consciousness, there will be no truth expressing itself through, or as, me; and, moreover, unless God is your consciousness, you will not understand the truth that is being presented. But, since God is universal consciousness and since God is my consciousness, truth is expressing itself as this book.
