Supplement to "A Monograph of Clavaria and allied Genera ...

Clavaria is a genus of fungi in the family Clavariaceae. Species of Clavaria produce basidiocarps (fruit bodies) that are either cylindrical to club-shaped or branched and coral-like. They are often grouped with similar-looking species from other genera, when they are collectively known as the clavarioid fungi.

Clavaria - Wikipedia

In his monograph of the Sapotaceae (1904), however, he includes Sider-oxylon grandiflorum (= C. major) and gives Mauritius as its locality, but does not refer to Gaertner's two other species. He includes one other species with S . grandiflorum in his section Calvaria of the genus Sideroxylon, namely S. imbricarioides A.DC., the 'Bois de fer' from
