Herbert JR, Barone J. On the possible relationship between AIDS and nutrition. Med Hypotheses 1988 Sep;27(1):51-54. You CH, Lee KY, Chey RY, Menguy R. Electrogastrographic study of patients with ...

With more than 465 images for study and ongoing reference, the new edition of this classic atlas incorporates the latest technological advances in radiologic anatomy, including increased resolution and numerous new images in computed tomography and magnetic resonance. This atlas features 232 copies of line drawings, which can be placed as transparent overlays on the images for direct identification of the anatomical structures. Both students and healthcare professionals alike should find this authoritative atlas helpful for its unique balance of historical insight, detailed images and drawings, and techniques for practical application.
