gearboxes. Putting in anything else other than ATF would technically void your transmission warranty.

e36 fluids - BMW CATALOG

From the mid-1990s, nearly all BMW manual transmissions, except 6-speed M models, use a Dexron III ATF oil, indicated by an "ATF" label on the transmission. You can find a Dexron III spec almost anywhere but we are impressed with the performance of Red Line ATF D4 in manual transmissions.

How to Change Your Transmission Oil
- BMW E36 - YouTube

The spec is from the BMW manual
and the Dex III is the lifetime fill. Well,
define life time, tell me what's the
lifetime of a BMW transmission? If the
transmission lasted 70,000 miles, the
fluid really lasted to the life of the
transmission, however if you would
change the fluid you could get 3 or 4
times of that out of the tranny.
