The Harvard Law Review is a student-run journal of legal scholarship. It is intended to be an effective research tool for practicing lawyers and students of the law. The Review publishes articles by professors, judges, and practitioners and solicits reviews of important recent books from recognized experts.

Suffering from chronic project headaches? Relief is on the way! PM pro George Ritz has written the prescription for the efficient, profitable, and headache-free management of any capital project. Total Construction Project Management combines the latest management innovations with tried-and-proven construction techniques to produce a cutting-edge “total system” guaranteed to give you complete control over every phase of field operations. You'll see how to: prepare winning bids and proposals; obtain and negotiate favorable contracts; estimate accurate project costs; determine realistic project budgets; set attainable project schedules; organize human, physical, and financial resources; design, build, and motivate a field organization; implement effective project controls; ensure job-site safety; improve project communications; use PCs in the field and office; and much more.
