Death and Taxes follows Mark Douglas, an ex-Marine turned IRS agent, who, along with auditing the weird and the profane, also spearheads weekend raids with his locked-and-loaded gang of government-sanctioned revenuers, merrily gathering back taxes in the form of cash, money order, or more often than not, the debtor's most prized possessions. Things turn ugly when Mark's much-loved boss and dear friend Lila is tortured and killed over what she finds in a routine set of 1040 forms. Mark follows a trail dotted with plutonium-enriched cows, a Saudi sheik with jewel-encrusted body parts, a doddering, drug sniffing, gun-swallowing dog named The Cabbage, a self-righteous magician with a flair for safecracking, a billionaire Texan with a fetish for spicy barbecue sauce and even spicier women, and an FBI field agent whose nickname is Tightass. All of which lead to more and bloodier murders and more danger for Mark. Enlisting his IRS pals Harry Salt, a 30-year vet with a quantum physical ability to drink more than humanly possible; Wooly Bob, who's egg-bald on top with shaved eyebrows to match; Miguel, an inexperienced newbie with a company-issued bullhorn and a penchant for getting kicked in the jumbles; Mark hunts down the eunuch hit man Juju Klondike and the deadly Mongolian mob that hired him as only an angry IRS agent can. There will be no refunds for any of them when April 15th comes around. There will only be Death and Taxes.

Includes how-to information for repairing lawnmowers and garden tractors, edgers, tillers, snow throwers, leaf blowers, chain saws, string trimmers, portable pumps and portable generators.

The collapse of the USSR seemed to spell the end of the empire, yet it by no means foreclosed on Russia's enduring imperial preoccupations, which had extended from the reign of Ivan IV over four and a half centuries. Examining a host of films from contemporary Russian cinema, Nancy Condee argues that we cannot make sense of current Russian culture without accounting for the region's habits of imperial identification. But is this something made legible through narrative alone—Chechen wars at the periphery, costume dramas set in the capital—or could an imperial trace be sought in other, more embedded qualities, such as the structure of representation, the conditions of production, or the preoccupations of its filmmakers? This expansive study takes up this complex question through a commanding analysis of the late Soviet and post-Soviet period auteurs, Kira Muratova, Vadim Abdrashitov, Nikita Mikhalkov, Aleksei German, Aleksandr Sokurov and Aleksei Balabanov.

Anthony C. Yu's celebrated translation of *The Journey to the West* reinvigorated one of Chinese literature's most beloved classics for English-speaking audiences when it first appeared thirty years ago. Yu's abridgment of his four-volume translation, *The Monkey and the Monk*, finally distills the epic novel's most exciting and meaningful episodes without taking anything away from their true spirit. These fantastic episodes recount the adventures of Xuanzang, a seventh-century monk who became one of China's most illustrious religious heroes after traveling for sixteen years in search of Buddhist scriptures. Powerfully combining religious allegory with humor, fantasy, and satire, accounts of Xuanzang's journey were passed down for a millennium before culminating in the

Recent molecular biological investigations indicate that stress caused by fluid dynamical effects and extreme values of process variables and toxic substances cause similar responses in the cells. These molecular fundamentals, as well as quantitative evaluation of fluid dynamical stresses and, their effects on microorganisms, animal and plant cells and proteins are treated in this volume.
