They had been forced to land behind the enemy's line because their motor had stopped. They were hardly down when the "Pisangs" (French peasants) came running toward them from every direction. They managed to get into a nearby woods by beating a hasty retreat. Behind them they heard the yelling of the men and women. The woods was surrounded, and they had to hide till night fell. Then they escaped into the Argonne Forest, under cover of darkness although fired on a number of times. Here they spent five days, avoiding French troops. This book covers multiprotocol SAN routing in general and the Brocade SilkWorm Multiprotocol Router platform in particular. The subjects covered for each service include theory, usage cases, and advice on designing, implementing, and managing routed SANs. "Multiprotocol Routing for SANs" offers the first comprehensive look at this cutting-edge technology.
