There are two major categories of e-commerce transactions: business-to-business and business-to-consumer.

E-commerce - **Encyclopedia.com**

Ecommerce, also known as electronic commerce or internet commerce, refers to the buying and selling of goods or services using the internet, and the transfer of money and data to execute these transactions. Ecommerce is often used to refer to the sale of physical products online, but it can also describe any kind of commercial transaction that is facilitated through the internet.

Ecommerce Definition—What is Ecommerce

Although in the vernacular e-commerce usually refers only to the trading of goods and services over the Internet, broader economic activity is included. E-commerce consists of business-to-consumer and business-to-business commerce as well as internal organizational transactions that support those activities.

E-commerce—**Encyclopedia Britannica** | Britannica

E-commerce (electronic commerce) is the activity of electronically buying or selling of products on online services or over the Internet.Electronic commerce draws on technologies such as mobile commerce, electronic funds transfer, supply chain management, Internet marketing, online transaction processing, electronic data interchange (EDI), inventory management systems, and automated data ...
