Here is the most comprehensive guide to the restoration, renovation, and development history of all V-twins (1965-2000) from the company that author Mick Walker confidently--perhaps controversially--describes as "Italy's most glorious marque." An invaluable guide to the many engineering re-designs, technical modifications, and re-styling exercises carried out on the V-twin Moto Guzzi over years. This volume is packed with technical data unavailable from any other single source, from Ing. Giulio Carcano's 1965 V7--a sensation at the 39th International Milan Show--to the V11SS 6-speed gearbox. And in between? More than 50 models, heavyweights and middleweights, custom cruisers and off-roaders, engine and gearbox stripdown, electrics, fuel injection analysis, model recognition, model years, performance kits--even specialized workshop tools. Nothing is overlooked in the quest for your perfect Guzzi.

While the history of European ompetition motorcycles has been largely dominated by Italian, British, and German marques, other builders around the continent have also played significant roles from the turn of the century to present. Arranged by nation, this book examines more than two dozen important marques, including Bultaco, CZ, Elf, Husqvarna, KTM, Ossa, Peugeot, and many others. A wealth of rare photography, including a special color section, includes candid shots of the top personalities and the bikes both at rest and at speed.

Guzziology has been called the bible for owning, operating, maintaining, servicing, repairing, updating, and modifying Moto Guzzi motorcycles. It has been continually updated for over a quarter of a century. Author Dave Richardson has 34 years of experience working in Moto Guzzi dealerships. Guzziology has been purchased by Guzzisti in all 50 US states, all 10 Canadian provinces, all 7 continents (Yes, someone ordered a copy from Antarctica!), and over 40 countries. This is the latest version, Version 9.

The author's personal selection of classic BMWs. It begins with the sporting six-cylinder 300 series of 1934-37 and goes on to cover such BMWs as the Isetta-BMW Bubble Car and 2000/2002, including rarities such as the 170bhp turbo.

The oldest European motorcycle manufacturer in continuous production, Italy's Moto Guzzi has built some of the most iconic motorcycles ever produced. Established in 1921, the company is one of the most traditional motorcycle makers and also one of the most innovative.
