Higher Order Thinking Skills For

Higher-order thinking skills (HOTS) is a concept popular in

American education. It distinguishes critical thinking skills from low-

order learning outcomes, such as those attained by rote memorization.

HOTS include synthesizing, analyzing, reasoning, comprehending,

application, and evaluation.

---

What Are High-Order Thinking Skills (HOTS) in Education?

Higher-order thinking involves the learning of complex judgmental

skills such as critical thinking and problem solving. Higher-order

thinking is more difficult to learn or teach but also more valuable

because such skills are more likely to be usable in novel situations (i.e.,

situations other than those in which the skill was learned). Education

reform. It is a notion that students must master the lower level skills

before they can engage in higher-order thinking.
