From Tyler Henry, a twenty-year-old clairvoyant and star of E!’s hit reality series Hollywood Medium with Tyler Henry, comes Between Two Worlds, a memoir about his journey as a medium thus far. Tyler Henry discovered his gift for communicating with the departed when he was ten, and now, at age twenty, is a renowned, practicing medium who is the go-to clairvoyant of celebrities, having worked with some of Hollywood’s biggest names including Khloe Kardashian, Amber Rose, Margaret Cho, Jaime Pressly, Monica Potter, and Boy George, many of whom appear on his smash hit E! reality show, Hollywood Medium with Tyler Henry. Between Two Worlds reveals what living life as a medium is really like—from opening up about discovering his gift as an adolescent, to what it’s truly like to communicate with the departed and the lessons we can learn from our loved ones. He also discusses the difficulty he had accepting his rare talents and the courage it took to share them with the world.

"The American Dream is the fundamental story of this country, and my life is a grateful reflection of its reality." When Rosario was fourteen years old she moved from Mexico to California with no grasp of the English language and few resources. She has since become a trailblazer in every sense: from becoming the first in her family to graduate from college to having her signature appear on the U.S. dollar bill as the treasurer of the United States, and the first Latina in California to run for the U.S. Senate. Leading Between Two Worlds is the story of this incredible journey. Rosario exposes her most personal secrets and impressive achievements as she divulges what she has sacrificed and what she has gained in politics. She takes us through a deeply felt betrayal, her struggle through depression, the creation of her family, her devotion to advocating for the rights of people with disabilities, and her joyous return to Mexico. Rosario's story is the story of every immigrant who -- in the face of unbelievable adversity -- seeks to make it in the United States. Her journey is one of tragedy and triumph, one from which readers will draw inspiration.

America’s top psychic medium reflects on his life of speaking to Spirit and the lessons he’s learned along the way—from both the living and the dead. Matt Fraser is just an ordinary guy...who happens to talk to dead people. Born into a psychic family, Matt carries on the legacy passed down from his late Grandmother Mary by connecting people to their dearly departed loved ones and delivering messages from the other side. His sold-out live group readings, television appearances, and private readings have allowed him to bring hope and healing to fans from around the world. But people who are not in the habit of talking with the dead have a hard time imagining what his day-to-day life is like. Based on the questions he gets, they seem to think he spends most of his time sitting cross-legged in a trance, maybe hovering a few inches off the ground, leaving his physical body behind as he journeys across the veil to the spirit realm. But it’s not like that at all. Now, in When Heaven Calls, Matt opens up about it’s really like to be a psychic medium—including how he discovered his spiritual gift, what it’s like to connect with souls on the other side, what communicating with the dead has taught him about embracing life, and how you can tap into your own intuitive awareness to manifest your dreams, goals, and desires.

From the world’s most influential management consulting firm, McKinsey & Company, an insight-packed, revelatory look at how the best CEOs do their jobs based on extensive interviews with today’s most successful corporate leaders—including chiefs at Netflix, JPMorgan Chase, General Motors, and Sony. Being a CEO at any of the world’s largest companies is among the most challenging roles in business. Billions, and even trillions, are at stake—and the fates of tens of thousands of employees often hang in the balance. Yet, even when “can’t miss” high-achievers win the top job, very few excel. Thirty percent of Fortune 500 CEOs last fewer than three years, and two out of five new CEOs are perceived to be failing within eighteen months. For those who shoulder the burden of being the one on whom everyone counts, a manual for excellence is sorely needed. To identify the 21st century’s best CEOs, the authors of CEO Excellence started with a pool of over 2400 public company CEOs. Extensive screening distilled that group into an elite corps, sixty-seven of whom agreed to in-depth, multi-hour interviews. Among those sharing their views: Jamie Dimon (JPMorgan Chase), Satya Nadella (Microsoft), Reed Hastings (Netflix), Kazuo Hirai (Sony), Ken Chenault (American Express), Mary Barra (GM), and Peter Brabeck-Letmathe (Nestlé). What came out of those frank, no-holds-barred conversations is a rich array of mindsets and actions that deliver outsized performance. Compelling, practical, and unprecedented in scope, CEO Excellence is a treasure trove of wisdom from today’s most elite business leaders.

Violentologies: Violence, Identity, and Ideology in Latina/o Literature, explores how various forms of violence undergird a wide range of Latina/o subjectivities, or Latinidades, from 1835 to the present. Drawing upon the Colombian interdisciplinary field of violence studies known as violentología, which examines the transformation of Colombian society during a century of political and interpersonal violence, this book adapts the neologism "violentology" as a heuristic device and epistemic category to map the salience of violence in Latina/o history, life, and culture in the U.S. and globally. Based on one hundred primary texts and archival documents from an expansive range of Latina/o communities - Chicana/o, Puerto Rican, Cuban American, Dominican American, Salvadoran American, Guatemalan American, and various mixed-heritages and transversal hybridities throughout the world - Violentologies features multiple generations of Latinx combatants, wartime non-combatants, and "peacetime" civilians whose identities and ideologies extend through, and also far beyond, familiar Latinidades. Based on this discrepant archive, Violentologies articulates a contrapuntal assessment of the inchoate, contradictory, and complex range of violence-based Latina/o ontologies and epistemologies, and corresponding negotiations of power, or ideologies, pursuant to an expansive and meta-critical Pan-Latina/o methodology and, ultimately, an anti-identitarian Post-Latina/o paradigm.

First published in 1985, this book explores the ‘lived culture’ of urban black students in a community college located in a large northeastern city in the United States. The author immersed herself in the institution she was studying for a full academic year, exploring both the direct experiences of education, and the way these experiences were worked over and through the praxis of cultural discourse. She examines in detail the messages of the school, including the ‘hidden curriculum’ and faculty perspectives, as well as the way these messages are transformed at a cultural level. The resulting work provides a major contribution to a number of debates on education and cultural and economic reproduction, as well as a leap forward in our understanding of the role schooling plays in the re-creation of race and class antagonisms. This work will be of great interest to anyone working with minorities, particularly in the context of education.
