This book gathers the best articles presented by researchers and industrial experts at the International Conference on “Innovative Design and Development Practices in Aerospace and Automotive Engineering (I-DAD 2018)”. The papers discuss new design concepts, analysis and manufacturing technologies, with an emphasis on achieving improved performance by downsizing; improving the weight-to-strength ratio, fuel efficiency, and operational capability at room and elevated temperatures; reducing wear and tear; and addressing NVH aspects, while balancing the challenges of Euro IV/Barat Stage IV emission norms and beyond, greenhouse effects, and recyclable materials. The innovative methods discussed here offer valuable reference material for educational and research organizations, as well as industry, encouraging them to pursue challenging projects of mutual interest.

Breeding Oilseed Crops for Sustainable Production: Opportunities and Constraints presents key insights into accelerating the breeding of sustainable and superior varieties. The book explores the genetic engineering/biotechnology that has played a vital role in transforming economically important traits from distant/wild species to cultivated varieties, enhancing the quality and quantity of oil and seed yield production. Integrated nutrient management, efficient water management, and forecasting models for pests diseases outbreaks and integrated pest and pest management have also added new dimensions in

breeding for sustainable production. With the rise in demand, the scientific community has responded positively by directing a greater amount of research towards sustainable production both for edible and industrial uses. Covering the latest information on various major world oil crops including rapeseed mustard, sunflower, groundnut, sesame, oilpalm, cotton, linseed/flax, castor and olive, this book brings the latest advances together in a single volume for researchers and advanced level students. Describes various methods and systems to achieve sustainable production in all major oilseed crops Addresses breeding, biology and utilization aspects simultaneously including those species whose information is not available elsewhere Includes information on modern biotechnological and molecular techniques and production technologies Relevant for international government, industrial and academic programs in research and development

Traces the fall and the final realization of the illustrious King Prathiban Chola's dream of an all powerful Chola empire and the exploits of the Pallava king, Narsimhan Varman.

Jay Benson had been one of the US Army's top snipers. In Vietnam he'd killed 82 Vietcong. But making the School of Shooting he'd taken over outside Paradise City pay was a tougher proposition than the Vietnamese jungle. So when the sinister Augusto Savanto turns up with an offer of \$50,000 if Jay turns his gun-shy son into an expert shot - in just nine days - he accepts. Then he discovers the horrific reason why Savanto wants his son made into a marksman. But by now there is no backing out for Jay ...

The topics in this volume explore the etiology, cellular mechanisms, epidemiology, genetics, models and potential therapeutic measures for the blinding diseases of retinitis pigmentosa and age-related macular degeneration. Special focus is highlighted in the areas of Mechanisms of Photoreceptor Degeneration and Cell Death (extremely important because very little is known how or why photoreceptors die in these diseases, despite an abundance of genetic information), Age-Related Macular Degeneration (with several novel approaches to its analysis), Usher Syndrome (the most severe form of retinitis pigmentosa, which includes an early or congenital loss of hearing along with blindness), and Gene Therapy. In addition, the section on Basic Science Related to Retinal Degeneration is particularly strong with several laboratories reporting on new discoveries in the area of outer segment phagocytosis, a key component of photoreceptor-retinal pigment epithelial cell interactions in normal and degenerating retinas.

rebels in Syria. He's not so happy to be on his way back to Chicago to recuperate with his college friends Maddie and Aidan, who are now a couple. The fear while being held prisoner was nothing compared to how he feels about facing the two people who unknowingly broke his heart seven years ago. Maddie and Aidan are deeply in love, but lately they feel something is missing for them. They'd do anything to make the other happy, but are struggling to figure out what that is. Those problems are set aside, however, when their best friend from college is taken hostage in Syria. After graduation, Maddie and Aidan were hurt by Zack's refusal to ever come home to visit, but he's still their friend and he has no family, so when he's finally free they insist he come stay with them to recover. Zack's a different man now. He's seen terrible things. He's come to terms with his sexuality and embraced his need to dominate. Maddie and Aidan would be shocked to know the kinds of things he likes to do. A guy like him will never have a relationship like theirs. But when Zack realizes he might be able to show Maddie and Aidan what they're missing, he faces a dilemma. Do something? Do nothing? Pretend everything's fine? Help them if he can? But will showing them what they're missing help save their relationship...or destroy it? When Kalika loses one of her twins at childbirth, a daughter she longed for, it is not the only loss in the family. The son that survives loses the love of his mother. Her son grows up needing to be the daughter his mother wants but struggles in a recently Independent India still haunted by its colonial past, its mystical religious rites and its birth into the world. Sarayu Srivatsa has created a family portrait suffused and coloured by the landscape of Southern India, where history, religion and gender collide in a family scarred by its past and struggling with the present.

The Forests are playing a significant role in the economic prosperity and ecological stability of the country. The Indian Forests faces severe biotic and abiotic pressure leads to shrinking of its geographical distribution and the forest based industries are at the cross roads. This book incorporated the India's Forest and Agroforestry situation and the need for industrial wood plantations. It also comprises the status of various wood based industries like pulp and paper, plywood, matchwood, dendro power, biofuel and the requirement for different raw materials and the associated supply chain management.

that is the essence of The Queen of Jasmine Country. It is an astounding work of fiction. - Volga
Tonight, under this arena of starlight, I take up my stylus and press it by the glow of a clay lantern
into dry palmyra leaves. It is on this night that I dedicate myself - to my self, to who I truly am, to
what is invincible and without bondage of time, that predates me, that will outlive me. Ninth century.
In Pudukottai, a small town in what we now know as Tamil Nadu, young Kodhai is taught to read and to write
by her adoptive father, a garland-weaving poet. As she discovers the power of words, she also realizes
that the undying longing for a great love that she has been nursing within her - one that does not
suppress her desire for freedom - is likely to remain unfulfilled. Then, she hears of a vow that she can
undertake that might summon it to her. In deepest winter, the sixteen-year-old begins praying for a
divinely sensual love - not knowing that her words will themselves become prayers, and echo through the
centuries to come. Rich with the echoes of classical poetry, in The Queen of Jasmine Country, Sharanya
Manivannan imagines the life of the devotional poet Andal, whose sublime and erotic verses remain
beloved and controversial to this day.
