The Mazda MX-6 is a front-engine, front-wheel-drive coupé manufactured and marketed by Mazda from 1987-1997 across two generations. Mechanically identical to the Capella/626 and its hatchback platform mate, the Ford Probe, these cars shared the GD (1988–1992) and GE (1993–1997) platforms. The MX-6 replaced the 626 Coupé, although it continued to share the same chassis.
