Multidisciplinary Management of Rectal Cancer :
Vincenzo ...

Although the article's title is "Multidisciplinary management of resectable rectal cancer," it really doesn't emphasize how multiple specialists manage rectal cancer patients per se, and thus, the article would probably be more appropriately titled, "Combined-modality therapy in resectable rectal cancer."

Read Book Multidisciplinary Management Of Rectal Cancer Questions And Answers

Multidisciplinary Management of Resectable Rectal Cancer

Neoadjuvant radiotherapy should be considered for rectal cancer patients as an interim treatment, even in patients where a straight to surgery approach would normally have been recommended. The main purpose here is to delay progression of disease during this period, and a small proportion may achieve a complete clinical response.
