Remove all power sources (batteries and ac adapters) from sensor and main base unit. If multi-channel wireless sensor, please select a channel not used by another sensor (not applicable to rain and wind sensors). Insert batteries into the wireless sensor first and press the reset button (may require a paper clip).

Oregon Scientific Wireless Sensor Reset and ...
The weather station itself is placed inside and needs to be kept away from heat sources such as the kitchen, windows or electrical appliances. A separate outside temperature sensor needs to be placed in shadow and at least 1,25m above the ground. A rain sensor needs to be placed in an open area where it can always collect rain.
