The push to create "equity" and more "social justice" in public schools in America's largest state rests on this basic premise: "We reject ideas of natural gifts and talents," declares ...

Saxon math programs produce confident students who are not only able to correctly compute, but also to apply concepts to new situations. These materials gently develop concepts, and the practice of those concepts is extended over a considerable period of time. This is called "incremental development and continual review." Material is introduced in easily understandable pieces (increments), allowing students to grasp one facet of a concept before the next one is introduced. Both facets are then practiced together until another one is introduced. This feature is combined with continual review in every lesson throughout the year. Topics are never dropped but are increased in complexity and practiced every day, providing the time required for concepts to become totally familiar. Saxon Math 6/5 is an integrated mathematics program that consists of 120 daily lessons and 12 activity-based Investigations. Students are tested after every fifth lesson, and all tests are cumulative. Concepts are introduced incrementally and are continually practiced throughout the problem sets. Grade 5.

Homeschool kit contains 3184, 3222, 3265.

Physics is equally appropriate for average and gifted students. The entire program is based on introducing a topic to a student and then allowing them to build upon that concept as they learn new ones. Topics are gradually increased in complexity and practiced every day, providing the time required for concepts to become totally familiar. Includes: Student Textbook (Hardcover) 100 Lessons Appendix with selected tables Periodic Table of the Elements Answers to odd-numbered problems Homeschool Packet With Test Forms 25 Test Forms for homeschooling Answer Key to odd-numbered Textbook Problem Sets Answer Key to all homeschool Tests

Includes testing schedule and 23 cumulative tests. Worksheets for 1 student for 1 year, including facts practice tests and activity sheets, and various recording forms for tracking student progress on assignments and tests. Grade Level: 7

Included with the new Teacher's Manual, the Intervention Teaching Guide provides support for Saxon Math 5/4-8/7 students requiring intervention. The guide offers enhanced teaching strategies and program implementation strategies that help students working at different levels succeed.
