From New York Times bestselling author and senior economic correspondent at The New York Times, how to survive—and thrive—in this increasingly challenging economy. Every ambitious professional is trying to navigate a perilous global economy to do work that is lucrative and satisfying, but some find success while others struggle to get by. In an era of remarkable economic change, how should you navigate your career to increase your chances of landing not only on your feet, but ahead of those around you? In How to Win in a Winner-Take-All World, Neil Irwin, senior economic correspondent at the New York Times, delivers the essential guide to being successful in today ' s economy when the very notion of the “ job ” is shifting and the corporate landscape has become dominated by global firms. He shows that the route to success lies in cultivating the ability to bring multiple specialties together—to become a “ glue person ” who can ensure people with radically different technical skills work together effectively—and how a winding career path makes you better prepared for today's fast-changing world. Through original data, close analysis, and case studies, Irwin deftly explains the 21st century economic landscape and its implications for ambitious people seeking a lifetime of professional success. Using insights from global giants like Microsoft, Walmart, and Goldman Sachs, and from smaller lesser known organizations like those that make cutting-edge digital effects in Planet of the Apes movies or Jim Beam bourbon, How to Win in a Winner-Take-All World illuminates what it really takes to be on top in this world of technological complexity and global competition.

A New York Times Bestseller Winner of the James Beard Award for General Cooking and the IACP Cookbook of the Year Award "The one book you must have, no matter what you're planning to cook or where your skill level falls."—New York Times Book Review Ever wondered how to pan-fry a steak with a charred crust and an interior that's perfectly medium-rare from edge to edge when you cut into it? How to make homemade mac 'n' cheese that is as satisfyingly gooey and velvety-smooth as the blue box stuff, but far tastier? How to roast a succulent, moist turkey (forget about brining!)—and use a foolproof method that works every time? As Serious Eats's culinary nerd-in-residence, J. Kenji López-Alt has pondered all these questions and more. In *The Food Lab*, Kenji focuses on the science behind beloved American dishes, delving into the interactions between heat, energy, and molecules that create great food. Kenji shows that often, conventional methods don't work that well, and home cooks can achieve far better results using new—but simple—techniques. In hundreds of easy-to-make recipes with over 1,000 full-color images, you will find out how to make foolproof Hollandaise sauce in just two minutes, how to transform one simple tomato sauce into a half dozen dishes, how to make the crispiest, creamiest potato casserole ever conceived, and much more.

Praise for *THE APPLE EXPERIENCE* "There are three pillars of enchantment: likability, trustworthiness, and quality. The Apple experience is the best modern-day example of all three pillars. Carmine's book will help you understand and implement the same kind of world-class experience." --Guy Kawasaki, author of *Enchantment* and former chief evangelist of Apple "Carmine Gallo explains beautifully and simply just what makes the Apple retail experience so successful. No matter what kind of business you are in, there are insanely valuable lessons in this book!" --Garr Reynolds, author of *Presentation Zen* and *The Naked Presenter* "At its core, this book is not about Apple. It's about delivering the best experience possible." --Tony Hsieh, New York Times bestselling author of *Delivering Happiness* and CEO of Zappos.com, Inc. "An exciting resource for any business owner in any country who wants to reimagine the customer experience." --Loic Le Meur, CEO, LeWeb "Why can't other retail experiences be as great as an Apple store's? Not only does Carmine Gallo answer that question brilliantly, but he shows precisely how to make sure your customers never ask it about your business." --Matthew E. May, author of *In Pursuit of Elegance* and *The Laws of Subtraction* "Carmine Gallo gets to the magic of Steve Jobs: Touching people's lives. This simple, yet delightful vision should be at the heart of every retail interaction in the world today." --Peter Steinlauf, Chairman, Edmunds.com "This magnificent collection of insights illuminates the way for anyone who wants to create a truly great experience, whether in retail, service, or software." --Dan Roam, author of *The Back of the Napkin* and *Blah Blah Blah Reinvent your business to deliver Apple-like customer satisfaction and profits* In *The Apple Experience*, internationally bestselling author Carmine Gallo details the principles and practices behind this total commitment to the customer and explains how your brand can achieve outstanding results by delivering this same high standard of service. Carmine Gallo interviewed professionals at all levels who have studied Apple, and he spent hundreds of hours observing the selling floor in Apple's retail space and learning about Apple's vision and philosophy. Using insights and data from these sources, he breaks down Apple's customercentric model to provide an action plan with three distinct areas of focus: Inspire Your Internal Customer with training, support, and communications that create a "feedback loop" for improving performance at every level Serve Your External Customer with irresistible brand stories and dedicated salespeople who embody the APPLE five steps of service-- Approach, Probe, Present, Listen, End with a fond farewell Set the Stage by ensuring that no element is overlooked in creating an immersive retail environment where customers can see, touch, and learn about your products With *The Apple Experience*, you can improve the return on your investment in retail by adding real value to every customer interaction. Better still, any business that deals with people--employees or customers--can adopt the techniques to achieve Apple-like market dominance by enriching lives, building loyalty, and reimagining the customer experience. -

The #1 New York Times – bestselling story about the American Olympic rowing triumph in Nazi Germany—from the author of *Facing the Mountain*. Soon to be a major motion picture directed by George Clooney For readers of *Unbroken*, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington's eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys' own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man's personal quest.

Using a visually driven, playful presentation, *Dog Training 101* offers step-by-step instructions every dog owner needs and wants to know as you care for and raise your canine best friend.
