[Book] Ten Tec 1253 Manual

Ten-Tec Model 1253 Nine-Band Regenerative HF Radio Kit in a several short sessions spread out over several days. More experienced kit builders could be expected to complete this kit in much less time, but I took my time and worked at a leisurely pace. Overall, a good kit building experience. The kit included all required parts, which were packaged in several zip-lock plastic bags. It was ...

TEN-TEC MODEL 1253 REGENERATIVE RADIO KIT

Ten-Tec's instruction manual is clear and provides an easily followed checklist. The manual recommends the kit be constructed in phases as described below. The unit after the audio amplifier test. Clear overlays on the circuit board make installation easy.

Ten-tec 1253 instruction manual -546- | Amarantine Forum

The Ten-Tec 1253 is a gorgeous little regenerative shortwave receiver, that is sensitive and fun to build and use. These radio kits were available here in Australia for \$135, though as of 2018, they are no longer available. You can still find the manual online.

Ten-Tec 1253 Regenerative Shortwave Receiver kit

After studying the TEN-TEC 1253 and the NorCal FCC-1 schematics, I think about the only place to connect the FCC-1 Frequency Display would be between C2 32 pFd and the R3 10 OHM Resistor. I would recommend to ADD a 5 pFd Capacitor to the Input cable for the FCC-1 to prevent any loading effect to the TEN-TEC Receiver.

NorCal Fcc1 Display and Ten Tec 1253 Info Needed

UK21 Ten-Tec 1253 \$64.95 SOLD Shortwave Receiver Kit The Ten-Tec 1253 is a regenerative shortwave receiver kit covering these bands: 160, 75/80, 49, 40/41, 30/31, 25, 21/20/19 and 15/13 meters. This assembled unit features a speaker built into the top panel of the radio. The rear panel has a wire antenna input and headphone output jack. Includes a photocopy of the Owner's Assembly Manual.

Ten-Tec 1253 Receiver Kit - Universal Radio

I ordered one of these kits late last year from Ten-Tec. The kit went together in about 2.5-3 hours of building, and was really pretty easy to assemble. The only tools required other than the basic soldering iron and wire cutters is a second receiver which helps to properly align the kit. This is really just your basic regenerative receiver kit, nothing fancy, but it works. I wanted something ...
