search to find each other During the Baby Boom in 1960s America, women were encouraged to stay home and raise large families, but sex and childbirth were taboo subjects. Premarital sex was common, but birth control was hard to get and abortion was illegal. In 1961, sixteen-year-old Margaret Erle fell in love and became pregnant. Her enraged family sent her to a maternity home, and after she gave birth, she wasn't even allowed her to hold her own son. Social workers threatened her with jail until she signed away her parental rights. Her son vanished, his whereabouts and new identity known only to an

adoption agency that would never share the slightest detail about his fate. Claiming to be acting in the best interests of all, the adoption business was founded on secrecy and lies. American Baby lays out how a lucrative and exploitative industry removed children from their birth mothers and placed them with hopeful families, fabricating stories about infants' origins and destinations, then closing the door firmly between the parties forever. Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific

"assessments," and shamed millions of young women into surrendering their children. Gabrielle Glaser dramatically demonstrates the power of the expectations and institutions that Margaret faced. Margaret went on to marry and raise a large family with David's father, but she never stopped longing for and worrying about her firstborn. She didn't know he spent the first years of his life living just a few blocks away from her; as he grew, he wondered about where he came from and why he was given up. Their tale--one they share with millions of Americans--is one of loss, love, and the

search for identity. Adoption's closed records are being legally challenged in states nationwide. Open adoption is the rule today, but the identities of many who were adopted or who surrendered a child in the postwar decades are locked in sealed files. *American Baby* illuminates a dark time in our history and shows a path to reunion that can help heal the wounds inflicted by years of shame and secrecy.

would change their lives forever. As the happy couple drove from Michigan to Marion, Indiana, to pick up their daughter, the baby's birth mother sobbed as she shakily signed the adoption papers. Although her daughter had already left her body, she never left her heart—sealing a connection that would endure until her last breath. Linda Beggs shares a compelling story of raw feelings and an undeniable bond as she details how she searched for familiarity and yearned for connections throughout her life after she was adopted at birth. Despite growing up in a Christian home with loving

parents, Beggs describes how she confronted abandonment and identity issues, along with an increasing curiosity about her biological mother. After two attempts to find her birth mother failed, Beggs buried her feelings—until her persistence finally led her to meet her biological mother, acknowledge her emotions, and receive insight and healing through God's grace. Undeniable Connections reveals one woman's journey through adoption as she comes to terms with her emotions and, through God's wonderful plan, finds beauty in the ashes.
